John Dumas, President and CEO, SCI

From the beginning, our driving force has been a dedication to our mission, culture and core values with an unwavering belief in putting people first.

At Service Coordination, we are committed to providing quality case management.

In over the past 40 years, we've remained a leader in our field. We've impacted thousands of lives by focusing on people, their individual needs and goals, and delivering transformative services to help them achieve their vision of an ideal life.

At SCI, we believe our communities are stronger when all people are included in and valued by society, we are dedicated to inclusion, diversity, equity and accessibility, as we work to create a world where everyone belongs.

This philosophy extends to both those we serve and our own team. We firmly recognize that our future lies and our people. Affecting change in policies, systems, services, and the lives require an unwavering commitment, dedication, and passion. Thus our people first culture becomes the cornerstone of our success. This collaborative spirit empowers us to uphold our values, drive solutions, overcome obstacles, and navigate intricate systems.

A remarkable ability to foster connections and collaboration enables us to forge relationships that raise awareness and drive life-altering transformations. Together, we are building a world where everyone belongs, differences are celebrated, and all people can pursue their ideal life. We couldn't do it without you.
